The workshop will focus on the outcomes of the **VoicePrivacy 2020 Challenge** ([https://www.voiceprivacychallenge.org](https://www.voiceprivacychallenge.org)), which aimed to develop privacy preservation solutions for speech technology. Specifically, the task of the challenge was to develop a voice anonymization system. The goal of the workshop is to present a systematic overview of the challenge, participants' systems, novel anonymization metrics, objective and subjective evaluation results, and future directions, and to hold a discussion among the challenge participants and the workshop attendees on all these topics.

Please submit any questions to: [organisers@lists.voiceprivacychallenge.org](mailto:organisers@lists.voiceprivacychallenge.org)
Program

5:35 – 6:10 Official challenge setup and results
Natalia Tomashenko

6:10 – 6:40 Alternative anonymization metrics and post-evaluation results
Andreas Nautsch, Mohamed Maouche, Paul-Gauthier Noé, Natalia Tomashenko

6:40 – 7:00 Subjective evaluation
Xin Wang, Benjamin O’Brien, Anais Chanclu

7:00 – 7:30 Feedback from participants & audience - Plans for a second edition
Nicholas Evans
